DOCUMENTATION REQUIRED TO SUPPORT DECISION-MAKING

Please provide documentation wit the request to support medical necessity. Examples of appropriate documents include:

- Current (within 6 months, or more recent depending on condition) history and/or physician examination notes that address the problem and need for services requested
- Relevant medication history, lab, and/or radiology results
- Relevant specialty consultation notes
- Other pertinent information

REFERRAL POLICY

PCP to PCP Referrals:
For All Plans - If you are the member's assigned PCP or group, an authorization to provide primary care is required from the Plan if your member needs to see a PCP outside of your group.

CS-Cascade Select: Any service provided by a non-networked provider for a Cascade Select member requires prior authorization. Cascade Select members will be redirected to networked providers whenever possible. Any request for authorization to a non-network provider should include rationale why the member cannot receive those services with a networked provider.
